## ZIPPER 800®

### ZIPPER 800 for Scrolling posters :

The ZIPPER 800 are based on extruded high resistant polymers. Developed for the poster assembling in backlit scrolling systems, the ZIPPER 800 Profiles offer a wide range of specific properties like controlled rigidity, weather resistance, stability at high and low temperature.

### The ZIPPER 800 has exceptional :

- Mechanical characteristics
- High creep strength
- Increased Impact strength
- High adhesive bonding strength

ZIPPER 800 Adhesive Coating AC 12 mm - Flange 16  
Overall width 19.3 mm

This ZIPPER can be considered as the highest quality levels for Scrolling units in nearly all type of exposure.

Minimum Quantity Order:  
14400 meters

7200 meters (9 Rolls) - Profile A  
7200 meters (9 Rolls) - Profile B
